

## Users With Duplicate Allergies

On December 20th, Cerner will have completed an allergy cleanup that eliminated duplicate allergy terms when searching to add an allergy. The user can view allergies that were removed from their Favorite Folders by running a report in the Explorer Menu – 'Favorite Folder Audit Report'. This upgrade will not affect existing allergies on any patient's chart.

Thank you for your business! We appreciate it very much!

Sincerely,

Kemal Erkan, CEO/President  
United Medical, LLC
