CMS Extends Meaningful Use Stage 3 Start Date

An announcement from the Centers for Medicare and Medicaid Services (CMS) extends Stage 2 of the electronic health record (EHR) meaningful use program an extra year through 2016, building in more time for physicians and vendors to adequately prepare for Stage 3. But it does not change deadlines for Stages 1 and 2 (for example, physicians must still attest to meaningful use by Sept. 30, 2014, if they are to avoid financial penalties in 2015). For more information, please visit <http://tinyurl.com/meaningfulusestage2extension>.
