

*"A solution for the Medical Industry"*

Electronic Medical Records | Medical Billing | Practice Management | Physician Recruitment | Credentialing

July 16, 2014

**SPM Insurance Catalog Update**

The billing department will be updating and cleaning up the insurance catalog for all SPM clients. All insurances that do not have claims attached to them will be deleted. Insurances with duplicate entries will be merged, leaving only one option for insurances with many addresses that share a payer ID, for example Aetna, United Health Care, and Cigna. All active insurances will have a **'UM'** next to the insurance name. Any insurances that are no longer valid, or the practice is not credentialed with will have a **'ZZZ'** in front of the insurance name.

Please be sure to choose a valid insurance when adding insurances for new patients and updating existing patients that have incurred changes. It is very important to scan insurance cards into PowerChart, as the billing department can refer to the cards for phone numbers and insurance addresses. The screen shot below displays how your active and inactive insurances will look. Please do not hesitate to contact us at United Medical for any questions or concerns regarding this matter.

\*In the event that you may need insurances added that do NOT appear as active on the insurance list, please continue to submit IT requests on QuickBase. We will review the request and add insurances accordingly.

Plan Name	Street	City
