Vaccine	**# of Component**	**Administration Codes Reported**
HPV	1	90460
Influenza	1	90460
Meningococcal	1	90460
Pneumococcal	1	90460
Td	2	90460 +90461
DTaP pr Tdap	3	90460 +90461 +90461
MMR	3	90460 +90461 +90461
DTaP-Hib-IPV (Pentacel)	5	90460 +90461 +90461 +90461 +90461
DTaP=HepB-IPV (Pediarix)	5	90460 +90461 +90461 +90461 +90461

*V20.2 should be reported for all routine well baby or child check.

*90460 should not be entered as units.

*90461 can be entered as units only if they are related to a single vaccine on the claim form.

*Entering the related diagnosis code for the vaccine on each corresponding administration code may help determine which administration codes are billed for which vaccination.

*90471 - 90474 can still be used if there is no counseling performed on the patient.
